J

Make questions. 1 point

42. **Tom** will travel to Shiraz by train. ---------- ?
43. Tom will travel to Shiraz **by train**. ----------?

1

Read the passage and answer the questions.

K

Microbes live all around you, on you and inside you. Some microbes make you sick but most others keep you healthy and even help you to fight diseases. Bacteria and viruses are two important types of microbes. Bacteria are very small. They have only one cell. Bacteria can live in any area of the earth. They aren't all bad. In fact, you couldn't live without some bacteria. Viruses are among the smallest microbes on the earth, even smaller than bacteria. They are different from bacteria because they cannot live on their own. Viruses need to be inside a living cell to live and grow. There aren't many good things about viruses. They usually attack your body and make you sick.

2/5

Choose True (correct) or False (incorrect). 1 point

44. Viruses can live in any area of the earth. True False
45. There are more useful microbes than harmful ones. True False
46. A microbe is an important type of bacteria. True False
47. Our body needs some bacteria. True False

Write complete answers. 1.5 points

48. Are viruses smaller than bacteria?.....
49. Where do microbes live?.....
50. What do viruses usually do?.....

Read the following cloze passage. Choose the correct answer. 2 points

L
